

## ROUND CAMPUS RELAY

At 1.32 p.m. precisely on Wednesday 4 June Arthur Clegg fixed his imaginary gun to start the third annual Round Campus Relay sponsored by the Physics Department. Thirteen men and two ladies rapidly disappeared into the 80°F haze towards the first changeover point by the physics car park. The questions on everyones lips were: "Could the new powerful Geography team outrun last year's winning Elements of Physics team now performing under the banner of Bio-Ecology," and "Are the Operational Research ladies superior to the Engineering ladies,". The first question was answered 13 min and 44 secs later when a cool Brian (rhymes with "Coe") McMaw flashed over the finishing line 25 secs in front of long striding Andy Girling. Later, to ecstatic applause from the crowd, the Operational Research ladies team finished just 20 secs in front of the Engineering ladies.

Next year we are hoping for an even bigger turn out, in particular we would like to see more teams of joggers and occasional runners. Remember the longest stage is only 1.3 miles and the shortest 0.3 miles so make a note in your 1981 diary for Wednesday 3 June at 1.30 p.m. ....

The official results list follows:

1. Geography 13-44 (Record): C. Pooley, B. McMaw, P. Lightowler,  
2 J. Bateman
2. Bio-Ecology 14-09: S. Bird, A. Girling, D. Lemmon, P. Tulley
3. Computer Studies 14-33
4. History 14-56
5. Mathematics 15-24
6. Economics Casuals 15-39
7. Footballers 15-51
8. Environmental Science Staff 15-53
9. Physics Staff 16-07
10. Engineering Men 16-15
