

PHYSICS ROUND CAMPUS RELAY RACE (1 JUNE 1983)

RESULTS

Sorry about the weather - but we can't organise everything!. The heavy going seems to have slowed everyone down this year, so last year's record was not approached. Congratulations to the Physics team who won the race and to Katherine Bevington's mixed physics youngsters to whom the organisers have decided to present the ladies' prize. Unfortunately the all ladies team of mountaineers did not finish due to a mix-up at the start.
