

PHYSICS RELAY RESULTS (10th June 1987)

Thanks for entering this year's race and helping to make a record breaking field of nineteen teams. Unfortunately the "going" was described as "soft" and this was responsible for the relatively slow times. The spectators at the finish were treated to a real sprint finish between Wyl Willis (History) and the rapidly closing Ian Davenport (Economics A), Wyl managed to hang in to win the six pack of Thwaites in 14.09 .

Everyone agreed it was great to see so many ladies teams this year especially the Jobfinders from the Careers office who would have taken the prize for "best dressed" runners had we thought to provide one. Congratulations to the high speed Computing Women who took the ladies team prize in a time of 20.04.

Open Team Race:

POSITION	TEAM	TIME
1	History (Julian Field,Wyl1 Willis,Paul Peters, Mike Winstanley)	14.09
2	Economics A	14.10
3	Computing A	14.42
4	E/S Staff	15.08
5	Physics 1	15.37
6	University House	16.00
7	Chemistry	16.11
8	Engineering Anon.	16.29
9	Mecons	16.32
10	Engineering Staff	16.54
11	Chemistry Cheetahs	17.08
12	Economics B	17.12
13	E/S Students	17.32
14	Engineering Combined	19.00
15	Thundering Theoreticals	22.24

Ladies Team Race:

POSITION	TEAM	TIME
1	Computing Women (Kirty Walpole,Susan Coote,Helen Squibb, Dawn Geatch)	20.04
2	Jobfinders	20.39
3	Engineering Ladies	22.24
4	University House Ladies	22.48

Thanks to our starter Peter Lee , timekeeper Tony Llewellyn and all the helpers and supporters around the course. See you all next year.
