With the "going" good to firm this year we have a new "new course" record of 14.01 by the Management Elite. This is an excellent time but does not approach the all time record of 13.09.

Thanks to our starter Peter Lee who has performed this task with skill and dedication for many years and now retires to be replaced by the new head of SPAM. Thanks also to the timekeepers and marshalls around the course...we promise to supply red flags for those on the road crossing next year.

Once again apologies for the delay in the results service, this was caused by the gentle breeze which blew away our master lists!
