Well folks the new age and gender correction formula seemed to produce a pretty fair result don't you think? By the way we made up a new rule on the spur of the moment...to be considered for age/sex correction you had to have at least one runner over 33. Next year we may change this to: "the total ages of team must exceed 132". What do you think? Suggested changes in the algorithm must be submitted to the organisers at least a week before next years race!

Many thanks to all those who helped on the day. Prof Tony Guenault did a great job at the start, Terry, David and Gareth stopped the cars and Tim and Paul managed a faultless results sheet.

See you all next year.
